CHANDAN JHA

Frontend Developer | Web Developer

+91 8699762755 | chandanjha2714@gmail.com | Punjab, India

PROFESSIONAL SUMMARY

BCA graduate with hands-on experience in frontend and web development through freelance, project-based work for real clients and businesses. Developed, customized, improved, debugged, and deployed responsive websites using HTML, CSS, JavaScript, PHP, Python, WordPress, and related web technologies. Experienced in UI/UX implementation, responsive layouts, frontend functionality, form handling, backend integration, deployment, and website improvements, including projects for Alpha Dream Homes, Yellow Star, and The Knowledge Key. Also experienced with machine learning and data-related projects.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), Responsive Web Design, CSS Flexbox, Media Queries, jQuery
Backend / Programming: PHP, Python, MySQL
CMS: WordPress, Elementor
Tools: Git, GitHub, Microsoft Power BI, Jupyter Notebook, Microsoft Office
ML & Data: Scikit-learn, Pandas, NumPy, Matplotlib, TensorFlow/Keras, NLP

PROJECTS

Alpha Dream Homes | WordPress · Elementor · HTML · CSS · JavaScript
Live: https://alphadreamhomes.ca/

– Customized and enhanced a real estate website in WordPress and Elementor, improving page layouts, spacing, typography, buttons, and content presentation.
– Updated hero sections and images and refined responsive UI behavior across screen sizes for a cleaner, more consistent user experience.
– Handled website content and layout improvements, debugging, and general WordPress/Elementor customization based on project requirements.

Yellow Star | HTML · CSS · JavaScript · PHP · MySQL
Live: https://yellow-star.ca/

– Developed and improved a professional vehicle booking website with vehicle selection, pricing, booking flow, and responsive UI.
– Implemented booking forms, validation, availability logic, confirmation flow, and dynamic frontend interactions for the booking process.
– Worked across frontend and backend components, including PHP/MySQL integration and responsive UI/UX improvements.

The Knowledge Key | HTML · CSS · JavaScript · Node.js · Express.js · Multer · Email API
Live: https://theknowledgekey.com/

– Developed a responsive assignment/service website with a professional landing page, responsive UI, and assignment submission workflow.
– Implemented file upload handling and backend processing for assignment submissions, with email notification/submission workflow.
– Worked on frontend functionality, backend integration, debugging, and deployment-related improvements for the website.
